Agreement on a thesis at the Department AIBE

Between

Surname:

Student registration no.:

and

Professor:

Supervisor:

It is my express wish that I receive a thesis topic from the Department AIBE to which the following conditions apply. I was informed that I could have been given a different topic at another department to which these conditions would not apply. With my signature I confirm that I agree with the following points:

obligatory

Topic of the thesis and start of the processing time as mentioned above.

Inclusion in the mailing list of the supervising professorship and the Department AIBE for the period during which the thesis is being worked on in order to receive information on topics relating to everyday work (e.g. buildings, events).

recommended

Publication of the abstract on the website of the supervising professorship or the Department AIBE (general information on the thesis will be published there in any case).

Provision of a printed copy of the completed thesis for the Department AIBE's archive, which is accessible to interested parties.

I am aware that FAU is entitled to the original of the thesis on the basis of the examination regulations. This claim refers only to the physical ownership of the thesis as such and to the use for the purposes specified in the examination regulations.

I will provide the necessary files to the respective professorship and/or the Department AIBE. I will submit all relevant data for my thesis (source code, elaboration, documentation, etc.) digitally together with the thesis and, if necessary, enter it into the file system provided by the professorship.

I grant the university a non-exclusive, free, temporally and geographically unrestricted right to use the results of my work for the purposes of research and teaching as well as the unlimited right to use the work results, including any industrial property rights and copyrights. The University's right of use includes the right to pass on the work to third parties for use in research and teaching.

If my thesis makes a significant contribution to a patentable product/concept/etc., my supervisor and I will discuss the details of the patent together.

Due to the practical relevance of my work, I have received information and gained insight into documents that are to be treated confidentially. Since the results of my work are based on the aforementioned information and documents, I will only make my work accessible to third parties or publish it with the consent of the supervisor.

I have taken note of the following information:

- If you need access to buildings and/or rooms, please ask your supervisor to send an email with the necessary information (FAU ID, duration, room) to hta-support@fau.de and add you in CC.
- Students can book a desk at Nürnberger Str. 74 via Flexopus. Please apply for access via IdM and wait for confirmation. One working day after your first login to Flexopus, you will be assigned to the correct group and can book: <https://www.idm.fau.de/grow/definition/latest/flexopusApplication>.
- If further authorizations (access to computers, access to software licenses, etc.) are required, please also ask your supervisor to send an e-mail to hta-support@fau.de and add you in CC.
- If there are any changes, please inform both the supervisor and aibe-theses@fau.de. However, an extension (e.g. due to an illness that is documented by a doctor's sick note) can only be granted by the Examination Office.
- Access to the IT resources of the Department AIBE **will be deactivated 6 weeks after submission of the thesis, at the same time the user data will be deleted**. If a locking medium has been issued, this must also be returned no later than 6 weeks after submission of the thesis. If an extension of this deadline is necessary, please ask your supervisor to send an email to hta-support@fau.de with you in CC in good time.
